THE SHAPE OF DRAMA

LE FORME, THE MATTE COLLECTION

QUEO

LUXURY BATHWARE

DRAMA IN EVERY GROOVE

Le Forme is a collection that brings a dramatic theme to your space. Forever the domain of clean linear lines this collection introduces the geometry of circles within circles that appear as ceramic grooves on the elements. A fresh new personality emerges as the grooves mimic an organic form sculpted in ceramic. Your bath space gets a stunning luxurious centerpiece and the power of design prevails.

A black and white close-up portrait of Fabrizio Batoni, showing his eyes, nose, and mustache. The image is partially obscured by a diagonal gold line that runs from the top left towards the bottom right.

Fabrizio Batoni

FORM AND CRAFT

THE DESIGNER

Fabrizio Batoni was born in Colle di Val d'Elsa and he graduated in architecture at Florence University. Studio Batoni is an architecture and design studio that was founded by him in 1997. His skills, range from product design to interior architecture. The driving force of his design is the desire to create interesting form and drama keeping an eye to the needs of man and the environment that surrounds it.

THE SOUL OF SCULPTURE

As a form, this ceramic range mimics the image of sand dunes sculpted by the wind and recreates an organic feel. The craftsmanship is elegant and timeless, which keeps this particular collection central and elevates it to the pedestal of a creator.

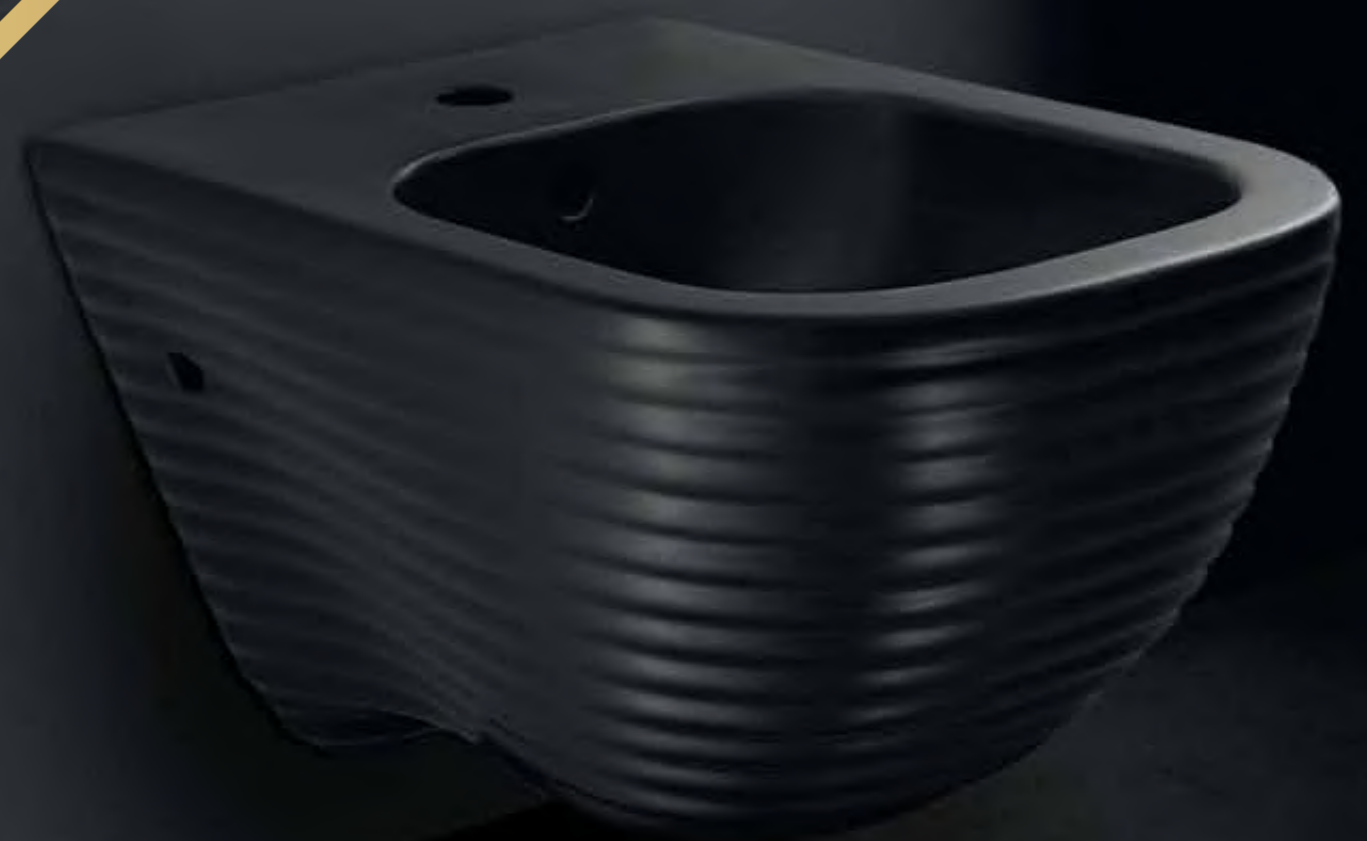

THE FORM OF MATTE COLOUR

Matte colours are an integral element of our world, they define a space and highlight it through contrast. A sensory perception, matte colours have effects that are symbolic, associative and emotional. A dash of matte colour can add a new aesthetic influence to the minimalist bath space and inspire instinctive reaction, giving every experience a new dimension. Queo has, hence, experimented with new shades in their bathroom proposals, giving indulgence and drama a new meaning, and becoming a source of inspiration for architects and designers. Celebrate matte colours with the Le Forme range – the softness of white, elegance of grey, warmth of brick and regal tone of matte black.
